

COUNSEL

Job Responsibilities: This position will be responsible for providing general legal support to the U.S. Pharmaceuticals group of Bristol-Myers Squibb, a biopharmaceutical company. The lawyer will be involved in all aspects of the U.S. Sales and Marketing organization and operate as part of a Law Department focused on providing excellent legal service to clients. The lawyer will be responsible for advising clients on a broad array of issues relating to FDA pharmaceutical regulations, advertising, product development, product labeling, promotional review, antitrust, antikickback and compliance issues, regulatory policy, and contracts. The lawyer is also expected to anticipate and proactively identify legal issues that could affect the Company as a whole and advise clients on how to resolve these issues. The lawyer will work on cross functional business teams, and also work with other lawyers in the Law Department to provide comprehensive advice to clients.

Requirements: The ideal candidate should have between two and five years of legal experience, preferably with a pharmaceutical company or with a law firm that represents pharmaceutical companies. Experience with FDA regulations and guidance provided by the Office of Inspector General, is preferable. However, experience working in other highly regulated industries could also be considered. Candidate must also have excellent interpersonal skills, excellent oral and written communication skills, qualities as a self starter, and the ability to work well both independently and as part of a team. Successful candidate must have excellent judgment and the knowledge and ability to involve others that may possess the needed expertise to address issues as required.
