

# Patent Litigation / Intellectual Property and Technology Associate - San Francisco or Silicon Valley

San Francisco, Silicon Valley  
posted on Nov 19, 2014

Dentons seeks a patent litigation associate with 2-4 years of experience having a computer science or electrical engineering background. This position can be based in either the San Francisco or Silicon Valley office. The ideal candidate will have experience in patent litigation and strong analytical and writing skills, strong academic credentials. (Experience working on IPRs or reexaminations is useful but not required.) Please include a writing sample with any submission.

Computer Science or Electrical Engineering background required. Candidate must be admitted and in good standing with the State Bar of California.
