

2015 Fellows Second Meeting Accountability Partner Exercise

1. According to Werten Bellamy, one should focus on creating “positive relationship capital” to build meaningful relationships. This is when you create value for others over time through interaction and service. Please discuss three relationships on which you are focused, and how you plan to create positive relationship capital in these relationships. Use the back of this card to list two goals for creating value on which you will focus in the next three months.
2. Later today, you have the opportunity to interact with the General Counsel and Managing Partners of LCLD Member organizations. Discuss your networking plan with your Accountability Partner.
3. Identify a recent professional setback, dissect it, and determine what you would change if you could go back and have a “do over.” What is your most important take away from that experience? How will you use this experience to move forward and grow?
4. Share a professional experience in your life that at the time was terrible, but ultimately turned out to be very positive. Identify the things that you did during this time to change a potentially negative outcome into a positive one.
