

2016 1L LCLD Scholars Summit Peer Networking Exercise

Please think through one or more of these questions. Note your responses in an email to your networking partner/group, and be sure to copy yourself. Prior to sending the responses, choose a date before the end of the summer to reconnect with your partner/group to discuss your progress.

1. Susan Blount and Lori Lorenzo discussed the five essential characteristics of tomorrow's leaders. Please choose one characteristic, as well as one or more of the development tips from the session, and set a goal for completion with regular check-in dates along the way.
2. One of the themes from the various LCLD Fellows presentations was to focus on skills development. Think about your career goals in three, five, and 10 years. List two essential skills and at least one thing you can do now to develop those skills. Be sure to set a goal for completion and check-in dates along the way.
3. You have heard several times over the course of the Summit that networking is vital to career success. Map out a plan for staying in touch with the colleagues that you met during your 1L LCLD Scholars Summit. Be sure to set calendar reminders to help you stay on track.
