

Barta, Jones & Foley, P.C. (“BJF”) is seeking one or more experienced patent attorneys (or agents with significant technical credentials) who enjoy working on high-tech inventions with intelligent inventors and sophisticated clients. As a woman-owned small business, BJF is dedicated to providing premiere client service with a culture that values quality of life. Our team of experienced attorneys benefit from part-time and full-time arrangements depending on individual needs, interests, and skills, while working on patent portfolios for some of the largest companies in the U.S. Internally, BJF has a formal mentoring program and encourages team-staffing of projects.

Ideal candidates will possess the following:

- a minimum of a BS in electrical engineering, computer engineering, or computer science;
- significant experience preparing and prosecuting patent applications in the above fields; and
- self-discipline and diligence to work remotely in an all-electronic law practice.

Please submit your resume in confidence to [info@bjfip.com](mailto:info@bjfip.com).
