

Privacy/Data Protection Attorney

Washington, DC; New York, NY; Charlotte, NC; - United States

Job number: 17000676

Job Description:

Bank of America is seeking an enterprise level privacy/data protection attorney.

Key Responsibilities:

- In-depth knowledge of, and experience analyzing and applying, federal, state, and global laws and corporate policies related to privacy, especially financial privacy, including state laws and regulations related to telemarketing and email marketing
- Analyzing and applying laws, regulations and corporate policies related to: the Fair Credit Reporting Act (FCRA) and its application to financial institutions, including requirements added to the FCRA by the FACT Act, privacy laws, including GLBA and US state privacy laws FCC and FTC consumer privacy rules, including TCPA and UDAAP, HIPAA and related regulations
- General Data Protection Regulation and other international privacy laws and regulations
- Proficiency with analyzing telemarketing, email marketing, affiliate sharing, data analytics, secondary use of consumer reports, credit scores, fraud scores, bankruptcy scores, and other model-based scores, and adverse action matters
- Proficiency with online and mobile privacy laws, and consumer notice and disclosure requirements
- Knowledge of, and practical experience with, federal and state data breach notification laws and regulations
- Experience analyzing laws, contract terms and conditions, and corporate policies and standards, related to financial privacy, consumer credit reporting, telemarketing, and email marketing
- Familiarity with laws related to e-commerce, mobile commerce, and information security
- Familiarity with self-regulatory regimes like Direct Marketing Association and CTIA
- Proficiency advising risk and compliance managers and other corporate support functions and attorneys in the above areas, and supporting them in the development of practical operational processes that control risk and ensure compliance
- Proficiency drafting and analyzing customer terms and conditions, contracts with third parties, and corporate policies and standards, related to financial privacy, the FCRA, and information security
- Work closely with Enterprise Privacy colleagues to identify risks and develop strategies for privacy/data protection and cross border data movement initiative implementation and compliance.

This position is posted as a more senior position but is flexible to be filled as a lower level position if the posted qualifications are met by a strong lower level applicant.

Required Skills:

- Minimum of 5-10 years relevant experience at a major law firm or corporate legal department. Will consider candidates with 3-5 years of experience for those with strong privacy/data protection experience
- Deep knowledge of privacy/data protection in the United States and around the world, including cross border data movement and human resources
- Ability to field issues across a diverse set of legal fields.
- Strong interpersonal, organizational and problem-solving skills.
- Ability to present complex issues in a clear and concise manner and provide succinct results-oriented legal advice.
- Ability to work in a fast-paced, demanding and collaborative environment with many stakeholders.
- Independent, self-starter capable of prioritizing conflicting demands and handling multiple assignments simultaneously.
- Strong influencing and leadership skills, including decisiveness on both legal and business issues.
- Must of JD or equivalent Law Degree
- Must be admitted to at least one state bar – active/good standing

Desired Skills:

- Experience in global financial services and with financial regulators is a plus.
