The Most Common Mistakes & Executive Coaching Session
John Mitchell

The first portion of this program looks at the common roadblocks for mid-career attorneys and provides tips for overcoming/avoiding them. Fellows will also be provided with guidance in developing an individualized career plan. The remainder of the program will be provided to Fellows to develop their personalized plan with the assistance of an executive coach.

Emotional Intelligence
Chris DeSantis

It's a mistake to think that people resist change. The reality is that people don't necessarily resist change; it's just that they aren't given sufficient reason as to why the change is happening. More

importantly, they likely don't know the who, the what, the where, and the how of going forward. Changes requires people to manage the human process. Having and effectively using emotional intelligence is the key to making it work.

11:00-11:15am
