Messaging & Presence

Chris De Santis, Specialist in Management and Organization Development

In this session, we will explore what it means to have “presence” and how we can prime ourselves to project it in a manner that’s true to who we are. We will deconstruct presence and look at the traits and behaviors that lead people to say that you have it. And yet, we cannot live by presence alone—we need to be interested in and interesting to others. Having something to say, that begs further inquiry, allows us to share who we are and, in turn, learn more about those to whom we are saying it. This experiential presentation explores both what we say and how we say it.
